Re: Hilliards Creek Site, Gibbsboro, New Jersey  
Administrative Order on Consent: Index No. II CERCLA-02-99-2037  
Final Report

Dear Ms. Capichioni,

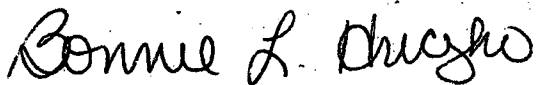

The United States Environmental Protection Agency ("EPA") has received the Final Report for the Administrative Order on Consent ("AOC") (Index No. II CERCLA-02-99-2037) submitted on September 7, 2007. I have reviewed the submitted final report and have no comments on the report.

In accordance with Section XXII, Notice of Completion of Work, Paragraph 82, of the Order, EPA has determined that all removal actions and requirements have been fully performed and/or satisfied in accordance with this Order, by The Sherwin-Williams Company, with the exception of continuing obligations required by the Order. Accordingly, this correspondence constitutes the Notice of Completion under this Order.

You are no longer required to submit progress reports and/or other documents in response to the above order; however, pursuant to the AOC for the Remedial Investigation/Feasibility Study ("RI/FS") (Index No. II CERCLA-02-99-2035) Paragraphs 36 and 37 you are required to maintain security measures at the Site and continue to submit monthly progress reports and/or associated documents to Ray Klimcsak, Remedial Project Manager of EPA's New Jersey Remediation Branch.

Should you have any questions regarding this Notice of Completion feel free to contact me at 732-321-6647 or email me at [Hriczko.Bonnie@epa.gov](mailto:Hriczko.Bonnie@epa.gov). Any questions regarding the AOC for the RI/FS can be directed to Mr. Ray Klimcsak at 212-637-3916 or Mr. Carl Howard, Esq., at 212-637-3216.

Respectfully,

A handwritten signature in cursive script that reads "Bonnie L. Hriczko".
